Martial Law Set in Congo

UN Decrees Death for Civilians With Weapons in Elisabethville

LEOPOLDVILLE, The Congo (UPI) — The United Nations set up martial law in Elisabethville today and said unauthorized civilians carrying weapons will be shot.

UPI correspondent Ray Moloney reported from Bancroft, Northern Rhodesia, that the warning of summary executions came from the U. N. spokesman in Elisabethville.

Typhoon Nancy Rushes Japan; 3 Now Dead

TOKYO (UPI)—Southern Japan braced today for the impact of Typhoon Nancy whose 165-mile-an-hour winds may make it one of the most devastating storms in recent Japanese history.

At least three deaths in Japan and the offshore Amami Islands already had been caused directly or indirectly by Nancy's howling winds and drenching rains.

Kyushu and Shikoku, the southernmost islands of Japan, were on typhoon alert, remembering previous storms which killed thousands of persons and flooded thousands of acres of land.

It was virtually certain that Kyushu would be hit by the mammoth storm, which Japanese newspapers placed in the "Super-A" category — among the biggest ever to strike this island nation.

U.S. Air Force weather reconnaissance planes flew into the heart of the storm in an attempt to chart its velocity and course.

An officer at the U.S. Air Force weather center said Nancy was accompanied by exceptionally heavy rains, certain to flood rivers and bring misery to thousands.

Members of Tram Authority Meet First Time

Members of the Mt. San Jacinto Winter Park Authority met in closed session this morning to consider the hiring of personnel, and will go into an open session this afternoon at which the press will be present.

Both Ralph Tudor, chief engineer on the project, and L. E. Dixon, Tramway contractor were present to talk with the members of the Authority.

It is the first meeting to which every member of the Authority has been present since the \$7,500,000 project was given the green light and the bonds were sold.

25 GOP Leaders Urge On Nixon

SAN FRANCISCO (UPI)—Former Vice President Richard M. Nixon, who said he will decide in a week or so whether to run for the governorship of California in 1962, was urged to do so Thursday night by 25 GOP leaders in California.

They met with Nixon in a two-hour closed-door session. San Francisco attorney Caspar Weinberger told newsmen after the meeting, "We all strongly urged Mr. Nixon to run."

Weinberger said that the former presidential candidate gave no indication as to what his decision would be, but Weinberger added that he believed Nixon already had made up his mind.

If Nixon seeks the governorship, he must first outpoll former Gov. Goodwin J. Knight, State Assemblyman Joseph C. Shell, and former Lt. Governor Harold J. Powers, who have declared their candidacy for the GOP.

Others attending the meeting included state GOP Chairman John Krehbiel, Los Angeles; National Committeeman Joseph Martin Jr., San Francisco, and National Committeewoman Mrs. Patricia Hitt, Orange.

Krehbiel said that a mail poll of California Republicans showed that 8,000 of 10,000 replying favored Nixon. He also said that 35 of the state's 58 county GOP chairmen have expressed preference for Nixon.

If Nixon were the GOP candidate, his opponent is almost certain to be Democratic Gov. Edmund G. Brown, who was a landslide victor over William F. Knowland in 1958.

Brown said Thursday he welcomed the growing field of Republican candidates for the job he now holds and added that whoever runs on the Republican ticket will have to run on the "disaster, reactionary and negative record" of Republicans in the legislature.

Observers feel that the main problem facing Nixon is how his candidacy for governor in 1962 would affect his chances to be president—a job that eluded him by a mere 112,881 votes in 1960.

A victory in 1962 would give him a forum both in California and the nation, but defeat might spell political oblivion.

Kennedy Has Firm Stand On Summit

Believes Answer On Berlin Crisis Can Be Reached

WASHINGTON (UPI) —

President Kennedy declared today the United States will not negotiate with the Russians on Berlin under threat or ultimatum but expressed belief that a "mutually acceptable" solution of the crisis can be reached.

In a message to the neutralist nations which met recently at Belgrade, Kennedy also served notice he would not meet at the summit with Soviet Premier Nikita Khrushchev until extensive lower-level spadework shows there is a "reasonable chance of success."

He said the United States and its Allies have "absolutely no intention" of resorting to force to solve the Berlin and German problems but bluntly added: "We are determined to honor our commitments and are prepared to meet force with force if it is used against us."

Kennedy told the neutral nations that while the Free World Allies agree there must be negotiations, the Kremlin "must give indication of a readiness to engage in discussion based on mutual respect."

"The only conditions it has yet exhibited...are conditions which involve the surrender of Western rights," the President declared.

The President restated his belief in the urgent need for a nuclear test ban agreement. He said Russia's resumption of atmospheric testing had increased the urgency for such a pact and it should not be delayed by the complexities of general disarmament as Khrushchev wants to link the two.

Kennedy also disclosed that an administration study had resulted in development of "comprehensive plan for general and complete disarmament" which he expects to make public in the near future.

The President said the new program contained provisions for general and complete disarmament which would rule out war as an instrument for settling international disputes.

Kennedy's message was addressed to Presidents Sukarno of Indonesia and Modibo Keita of Mali who came here this week as emissaries from the Belgrade conference.

Enrollment in Springs Schools Jumps to 3,760

Second day school enrollments in the Palm Springs Unified School District edged closer to the estimated 3,800 opening figure, for a 3,760 total.

School district officials reported that registrations now exceed the estimated opening figure. R. Dan Angell, assistant High School principal, announced that 237 registered students have not yet arrived on campus. The total registration was 3,997, two above the 1960-1 peak enrollment.

GREETING THEIR PRESIDENT are Mrs. Theresa Press, Palm Springs Realty Board president, and Roy St. Leon, regional vice president, left, who with Kenneth H. Smitten, state

president, center, were principals at a California Real Estate Association luncheon yesterday at the Palm Springs Riviera Hotel. See complete story on page 3. (Desert Sun Photo)

U.S. SETS OFF NUCLEAR BLAST UNDERGROUND

U. N. FORCES secure a position alongside a road leading to an airport in Elisabethville, Katanga. The U. N. troops invaded the secessionist province in an attempt to bring it under the Central Congo government. Today martial law was established in Elisabethville, with warnings that all unauthorized civilians carrying arms would be shot. (UPI Photo)

News In Brief

WASHINGTON (UPI) — About 393,000 Korean War veterans will receive special GI insurance dividends under a new law signed Wednesday by President Kennedy.

John S. Gleason Jr., administrator of veterans affairs, said Thursday the dividends will go to those who have converted or exchanged their old policies for new ones now in effect. An additional 234,000 who have not converted may receive the benefits if they convert within two years.

MIAMI (UPI) — Hurricane Esther maintained a steady course toward the U.S. mainland today but its 130-mile-an-hour winds still were too far away to constitute anything but a menace to shipping in the tropical Atlantic.

The Miami Weather Bureau said there were some indications weather conditions affecting the hurricane might change to swing Esther more to the north, but that it was too early to be sure.

DENVER (UPI) — The American Legion closed its four-day annual convention Thursday by calling on President Kennedy to forego the "bankrupt" policy of containment in favor of a fight for "liberation of the captive peoples."

GALVESTON, Tex. (UPI)—The U.S. Navy brought cases of food, medical supplies and fresh water today to refugees from Hurricane Carla.

The aircraft carrier Shangri-La was anchored a few miles east of Freeport, and another carrier, the Antietam, was off Matagorda Bay. Both flattops were being used as helicopter bases.

Junior College Board Buys New Automobile

PALM DESERT — Staffing discussions, purchase of a staff car, and payment of \$4,745 in routine bills filled the agenda of Coachella Valley Junior College District board here Thursday evening.

Dr. Roy C. McCall, college president, reported today that no specific recommendations were made to the board on a salary structure. The board and administrators did discuss staff structure, and salary range limits will be discussed later, McCall said. Other discussions included preliminary considerations of use of citizen's advisory committees to aid administration planning.

The board approved purchase of a 1962 four-door Chevrolet sedan from Valley Motors, Indio, for a low bid price of approximately \$2,730.

Kidnap Plague Moving Into Desert Areas

A passing motorist stopped at the weighing station on Highway 60-70-99 Highway 111 cutoff early this morning and reported to a California Highway Patrol unit that he had seen a car, speeding east, with two men in the front seat and a man bound and gagged in the back seat.

An all points radio bulletin was issued by the CHP, but as of late this morning the car, as it was described, had not been located. Earlier in this county, law enforcement agencies were alerted to two other all-point radio broadcasts — a robbery - kidnapping in Los Angeles and a felony warrant for a man from San Diego who had beaten his wife and taken his two children. He later was reportedly heading to El Centro.

In a police report from Los Angeles, a man was kidnapped at gunpoint and made to drive his abductor to Riverside where he was robbed of about \$30 and left at the corner of 7th and Lime streets in that city. The kidnapper escaped on foot.

Ex-Turkish President Sentenced to Death

YASSIADA, Turkey (UPI) — The High Justice Court of Turkey today convicted and sentenced to death former President Celal Bayar, ex-Premier Adnan Menderes and 13 other leaders of their deposed regime for abusing their constitutional powers while in office.

Menderes was not in court when the sentence was handed down by the nine-judge court. The chief judge said illness prevented his appearance.

The former premier was reportedly to have lapsed into a coma a few hours before he was to appear before the court—possibly from an overdose of sleeping pills.

There was no immediate official indication as to how or when the death sentences would be carried out. The sentences are subject to confirmation by the ruling military junta which overthrew the Bayar-Menderes regime in May 1960.

A military spokesman said Thursday that he expected the sentences to be confirmed within 24 hours, and the executions probably to be carried out soon afterwards.

The convictions and sentences climaxed an 11-month trial of 522

Kennedy Says Test Program Now Underway

WASHINGTON (UPI) — The United States conducted an underground nuclear test in Nevada today in an effort to perfect weapons "to strengthen the defense of the Free World."

It was the first U. S. nuclear explosion since 1958 when the United States, Russia and Britain voluntarily declared a moratorium on atomic testing.

While the White House gave no details on the nature of weapons involved, congressional sources said earlier this country was interested in developing new tactical nuclear weapons for battlefield use by the Army and Marines.

President Kennedy announced resumption of the U.S. testing program in a special White House statement in which he again called on Russia to negotiate a new test ban agreement.

Part of the tests, the announcement said, would be an effort "to improve means of detecting and identifying nuclear explosions for possible use in an international nuclear test control system."

Another purpose of the test, the announcement said, was "to study the use of nuclear detonations for peaceful purposes."

The White House said the test, conducted jointly by the Atomic Energy Commission and the Defense Department, was designed "to strengthen the defense of the Free World."

The announcement said the blast was "low yield" and produced no fallout.

A little less than 10 minutes after the test, prompted by Russia's atmospheric tests, White House Press Secretary Pierre Salinger called reporters into his office and informed them:

"President Kennedy announces that the United States conducted an underground nuclear weapons development test of low yield at the Nevada test site at 1 p.m. EDT."

"The detonation has produced no fallout. This is in marked contrast to Soviet nuclear tests in the atmosphere."

The White House earlier had signaled the test resumption by announcing the ground rules for release on information on such shots.

Salinger said the tests would not be announced in advance.

New Strike at GM Averted By Pressure

DETROIT (UPI) — Increased government pressure today averted a possible new General Motors strike just as GM and the United Auto Workers redoubled efforts to get a quarter-million workers back on their jobs by Monday as President Kennedy suggested.

Federal Mediation Chief William E. Simkin got the International Union of Electrical Workers and GM to agree to an indefinite extension at five GM appliance and parts plants. But a sixth plant at Warren, Ohio, ignored the government request and went on strike.

At the same time, the UAW and GM pledged to increase their efforts to reach a final agreement by Monday — an unofficial deadline set by Labor Secretary Arthur Goldberg on behalf of the President.

Sixty UAW - represented plants have settled local contract matters, eight of them Tuesday. But not all the factories re-opened and there still were 262,000 workers idle either by strike or shutdowns at 93 plants. About 89,000 GM workers were not affected.

Referring to the government request to re-open all GM plants by next week, UAW president Walter P. Reuther said "We are working hard" but indicated he was not going to be rushed into setting a deadline.

"You've got to realize that GM has 130 plants and it takes time to wrap them up," he said.

A decision will be made "in a day or so," he said, on when to convene the union's National GM Council. The 280-man group will meet to ratify GM's national and local contracts. Any plant still on strike then probably would be ordered re-opened.

Goldberg said Thursday that Kennedy wants General Motors back in full production by Monday because "we need our automobile industry back at work" and the nation can't afford a prolonged shutdown at GM.

Ex-Stewardess Files Suit Against United

NEW YORK (UPI)—The outspoken ex-stewardess stated her case quite simply: "I have led the life of a bachelor girl living in New York City. It has been neither a straight-laced one nor one of abstention," said Donna K. Koehler, 25, a former United Air Lines stewardess, in an affidavit filed Wednesday in state Supreme Court.

"Living alone in a large city away from the town of my birth and being a young and attractive woman, I have had my own moral code as to my relations with the opposite sex."

But, she concluded, it was clearly none of United's business.

Miss Koehler's personal life became an important issue Wednesday when she charged in a \$100,000 suit that two United Air Line executives questioned her about "the most intimate facts" of her off-duty activities and threatened her with arrest on charges of prostitution.

She also accused the airline of forcing her to resign shortly after the questioning occurred at LaGuardia Airport last month.

The airline denied the allegations but its motion that the suit be dismissed was denied by Supreme Court Justice George Carney. No date as yet for the trial.

The suit said Miss Koehler was accosted by a man who identified himself as James W. Miles, allegedly United's investigations manager, and another man who said he was a detective from the district attorney's office.

Highway Patrol Gets New Man

INDIO — Sgt. Walter Woods, a 20-year-service veteran with the California Highway Patrol, will join the Indio station staff Friday.

Woods, who is transferred from Oceanside, will replace Sgt. Ralph Terry, who returns to his former Red Bluff station. Terry joined the Indio office in March.

DIANE McBANE, as the reckless young woman who resists the advice of her companion-chaperone, and Claudette Colbert star with Troy Donahue, Karl Malden, Dean Jagger, Connie Stevens and Sharon Huguely in Warner Bros. Technicolor drama, "Parrish," at the Village Theatre.

PALM DESERT

Phillips Family Visited By Brother and His Wife

Arriving here last Thursday for a few days visit at the home of Mr. and Mrs. William Phillips was his brother, Lt. Col. Charles E. Phillips, retired, and his wife, Marie. Lt. Col. Phillips last duty was at Red River Arsenal, in Texas.

Now that he is retired they will make their home in San Diego with their daughter Barbara. Barbara was unable to accompany her parents here as she was taking exams at San Diego State College where she will be a sophomore. Her father will also attend the same college preparatory to receiving his master's degree. This visit was a most enjoyable one as it is the first time the two families have seen each other in about ten years. While here the two men played golf at the Indian Wells Country Club and Shadow Mountain Golf Club.

Friday, Mr. and Mrs. Carl Jensen (part-owners of Palm Desert Market) will leave on a two week tour of the Hawaiian Islands via International lines. Groups from San Francisco and Whittier will be in the group, and Mr. and Mrs.

C. M. Kincaide Jr., also from Palm Desert. This tour is sponsored by the Mission Inn in Riverside. The tour leader from the islands, who was here on her first visit to the United States met with the group at the Mission Inn to further discuss the trip before enplaning and will conduct the tour throughout the trip.

Last Tuesday Mr. and Mrs. Stanley O. Chambers, Jr. and their four children Linda, Owen, Dianna and Susannah returned to their home after a month's vacation spent in the High Sierras. They stayed at the Crystal Crag Lodge in the Mammoth Mountains on Lake Mary. Due to winter weather conditions, the Lodge closes during the winter months, and the owners, Mr. and Mrs. William Wells returned home with the Chambers for an indefinite stay.

Former resident Clancy Smith spent several days house-guesting at the home of his sister and her family, Mr. and Mrs. James Harstad. The Harstad family returned home Sunday night after having spent the summer months in their Detroit Lakes, Minn., home.

A postal from Irene Fenton that she is starting back down the Rhine, and is painting in Bad Godesberg, Germany, for a few days. She also states that she has done 10 canvasses which she plans to bring home with her. She will return here sometime in October.

Sunday afternoon between the hours of 2 and 5, Mrs. Adell Lingo, who is a long-time former resident of Palm Desert, was hostess at a champagne cocktail party in her new home at Calimeca in honor of old time friends, Mr. and Mrs. Harold Chapman from Tahiti. Other guests attending the party were Mr. and Mrs. Hal Kapp, Mr. and Mrs. Ted Smith, Mr. and Mrs. Al Weiss, Helen Foster, Evelyn Sahland, Olive Dyna, Liz McAfee, Mr. and Mrs. Oscar Hurley, Sue Holden, Mr. and Mrs. L. C. Lewis, Mr. and Mrs. Jack Brown, and William Tibbets. Entertainment was provided by authentic Tahitian dancers for the guests.

DESERT MAGAZINE GALLERY STARTS SHOWS ON OCT. 5

Desert Magazine Art Gallery, the free-to-the-public cultural attraction in Palm Desert that annually draws thousands of desert art-loving tourists to this area, has announced its special show line-up for the coming winter season.

The Gallery features a strict diet of paintings on a Desert Southwest theme. It is the largest all-desert gallery in the nation, and is now in its 13th season.

The special shows begin on Oct. 5 with three headliners. Beaten Yazz and Harrison Begay, talented Navajo artists, again lead off the season. Critics regard Begay and Yazz as among the best half-dozen Indian painters in America today.

Also exhibiting at this time (Oct. 5 through 26) will be Evelyn Grierson. This will be Mrs. Grierson's first show in Palm Desert, and it will be built around

her recently completed series of oils depicting Nevada ghost town scenes.

Conrad Buff, well-known Los Angeles book illustrator and landscapist, will present a one-man show on Oct. 26 through Nov. 16.

R. Brownell McGrew of La Quinta will show his work at the Gallery from Nov. 16 to Dec. 7. McGrew is considered by many critics as being one of America's truly great oil painters. He has recently been specializing in Navajoland scenes and portraits, and from his brush has come some of the first work ever done on the subject of American Indians. McGrew has displayed his work at the Desert Magazine Art Gallery for several seasons.

The incomparable John Hilton, most popular of the desert artists who have association with the Palm Desert Gallery, will once

again display his work in Palm Desert at the Christmas season, Dec. 7 to 28. The Hilton Christmas show has become a tradition at the Gallery, triggering a desert migration by scores of out-of-towners.

Dec. 28 to Jan. 18 are the dates for the Milford Zornes one-man show. Zornes is an established watercolorist from Claremont. He recently returned from an extensive sketching tour of Mexico, and the finished paintings that come out of this trip will form the nucleus of his show in Palm Desert.

Bill Bender, disciple of the renowned Jimmy Swinnerton, will exhibit from Jan. 18 through Feb. 8. Bender is the fastest rising young artist in the Southwest. He specializes in desert scenes. The artist was recently invited by the Air Force to go on an overseas painting tour.

Over 300 Hear CREA President

Continued burgeoning growth for the resort area is a virtual certainty, but the area needs industry to balance the local economy.

This, briefly, is the opinion expressed by Kenneth H. Smitten, president of the California Real Estate Association, before a crowd of more than 300 desert area residents yesterday.

Members and guests of realty boards comprising the CREA 28th District packed the main dining room at the Riviera Hotel for the session at which Smitten was both guest of honor and principal speaker. It was his official visit of the year to the seven local realty boards.

Smitten, a San Francisco realtor who has operated throughout the state, related experiences in

the Coachella and Imperial Valleys in the depression years of the early 1930s — when he and an associate were trying to sell hundreds of foreclosed farms.

And he gave the realtors most of the credit for the developments that have come to the area in the years since the depression.

Palm Springs Realty Board members were particularly praised for civic participation which Smitten said he was sure had much to do with growth and expansion.

The praise was based upon introductions by Mrs. Theresa Press, president of the Palm Springs Board, the official hosts. She pointed out that the local real estate fraternity included Supervisor George Berkey, Mayor Frank Bogert, City Councilman Ted McKinney and Planning Commissioners John Seamans and Lew Levy.

Also cited for service were Assemblyman Gordon Colonge, Indio's Mayor James J. O'Brien, Herb Lakey and D. D. Watson, past presidents life directors of CREA, and Francis Crocker, described as "father" of the San Jacinto Tramway.

Jack Pontius, 28th District vice president, introduced Smitten and reviewed accomplishments of the district's seven boards, heaping praise upon most of the local leaders.

Mayor Bogert, in his short address of welcome, stressed that it is time for all realtors to work together toward a common end, the betterment of the Coachella Valley and desert area as a whole rather than entirely on a community basis.

Leading delegations from the various boards represented were Mrs. Press, Arthur B. Knutson, Cathedral City; Richard B. Kite, Palm Desert; Milton A. Hoffman, Coachella Valley; Virginia Hurwitz, Twentynine Palms; Luther H. Colvin, Yucca Valley, and James G. Pack, Desert Hot Springs.

Program participants also included the Rev. Archie Matson, Jules De Vorzon and Hal Kapp. Dick Edwards was the winner of the door prize.

Pentagon Orders Review of Military in Entertainment

WASHINGTON (UPI) — The Pentagon has ordered all U.S. military command to make a searching review of any commitments already made to furnish personnel for movie, TV or radio appearances.

Right Ad, But Wrong Night

Anybody who went to the Palm Springs Ranch Club for the opening of the Corral Room last night had an apology coming from somebody.

It seems the club had an advertisement announcing the Friday night opening scheduled in The Desert Sun for today's paper and it showed up in Thursday's paper.

Things will be popping at the Corral Room tonight.

NEW DESERT POST

NEW EXPLORER scout flag, the first in this district, is presented by Frank Bjerring, assistant district scout commissioner, to Jerry Floyd, Exalted Ruler of Palm Springs Elks Lodge, No. 1905. The flag is for Elks Explorer Post No. 80. From the left are J. M. Mc-

Fadden, district scout commissioner and Explorer post chairman; Glenn Riley, institutional representative for Elks; Bjerring, Jerry Floyd and Gerry Young, president of the post. (Desert Sun Photo)

State Retail Gas Market Probe Set

SACRAMENTO (UPI) — California's retail gasoline market will be investigated during a series of special hearings scheduled to begin in Los Angeles Oct. 9.

Assemblyman Bruce F. Allen, R-Los Gatos, announced plans Thursday for the hearings, also to be held in San Diego Nov. 2 and Sacramento Dec. 1.

Allen, chairman of the Assembly Interim Committee on Manufacturing, Oil and Mining Industry, said his group will look into "alleged invasion of the California market by Eastern giants of the petroleum industry." Also scheduled for discussion are possible price fixing and control of retail stations by major companies.

School Board Meeting Covers CD Planning

Reports on Civil Defense planning involving district schools, school planning and site acquisition, and award of a construction contract were highlights of a four and a half hour meeting of the Palm Springs Unified School District board Thursday evening.

A contract for construction of the district warehouse, maintenance shops and bus service center was awarded to low-bidder Robinson and Wilson, Inc., of San Bernardino, for \$292,737. The bid was \$15,937 above architectural estimates, and an additional \$1,275 for architect's fees is required for the project, assistant superintendent Jack Miles reported. Miles explained that \$10,922 of the amount would be covered in budgeted contingencies. The other \$6,920 was transferred from unallocated surplus funds.

The board authorized a request to the federal Bureau of Land Management for a "hold" on two parcels of potential school sites north and northwest of Palm Springs. One site is adjacent to the Oasis tract, a second west of Highway 111 at the north of the city. The sites, which would be available to the district at 30 to 50 per cent of appraised value under current federal regulations, and may be further reduced in cost. The district is not committed to the purchase, Superintendent Dr. Dwight Twist explained.

In other site action, the board approved planning for the section

STAGE PEACE MARCH
NEW YORK (UPI) — The New York Council of the Committee for a Sane Nuclear Policy staged a "peace march" Thursday night from midtown Manhattan to the United Nations Building. About 2,000 persons attended a rally sponsored by the council earlier at a hotel.

Local Decorator In Big Exhibit

G. M. Nisley, Rancho Mirage interior decorator, is a busy man these days looking after business here in the Valley while participating in the annual exhibition of the Southern California Chapter of the National Society of Interior Designers in Los Angeles.

Nisley has a display among the settings on show at the Los Angeles Home Furnishings Mart from Sept. 18 to Oct. 18. The affair is primarily for retailers, but it is open to the public through the month.

Big, New Rocket Fired by Soviet

MOSCOW (UPI) — Russia fired a "new, more powerful multi-stage rocket" more than 7,500 miles over the Pacific Wednesday in the first of a scheduled series of tests, the Soviet agency Tass reported today.

Tass said the launching of the rocket was "successful" and that its operation in flight "fully conformed with the set program."

The rocket landed about 1,000 yards from its target in an ocean area about 1,000 miles southwest of Hawaii, the Soviet agency said, confirming the "high precision of the operation of the rocket's control system."

(Authoritative sources in Honolulu said a plot of the rocket's flight by American tracking stations showed it missed its mark

by at least 50 miles.)
The Tass statement did not say whether the rocket's payload was recovered by Soviet ships cruising near the target area.

Russia announced Monday that it would fire rockets "intended for space exploration" into a specified area of the Pacific in a series of tests beginning Wednesday and continuing until Oct. 15. The precise number of rockets to be tested was not announced.

(In another test Thursday, Russia set off a nuclear blast in the Arctic believed to have the force of many millions of tons of TNT. The explosion was the 10th in the current series of Soviet nuclear tests.)

(Despite Tass's claim that Wednesday's rocket was "new" and "more powerful" its reported performance did not match the ranges of 7,700 to 8,000 claimed for rockets the Russians tested last year.

(None of Russia's rockets so far has matched the 9,000-mile range achieved by the U.S. Atlas rocket in firings which carried it over the Atlantic Ocean and Africa into the Indian Ocean.)

Jewish Center Religious School Sign Up Monday

Registration for all new students at the Jewish Community Center Religious School will be held Sunday from 10 a.m. to 12 noon.

Youngsters who attended the school last year will receive notice of the times of their classes in the mail. Newcomers to the community and families with children of kindergarten age who have never attended are invited to come on Sunday to learn about the curriculum and schedule.

Herbert F. Hass is chairman of the religious school committee and will be on hand to discuss any problems with parents.

Registration is for weekly Hebrew classes as well as Sunday school classes.

UCLA Enrolls Student of 12

LOS ANGELES (UPI) — Lance Kerr enrolled at the University of California at Los Angeles Thursday, planning to study English, psychology, trigonometry, algebra and Russian during his first semester.

The only unusual aspect of this is that Lance is 12 years old.

He's the youngest student ever enrolled at UCLA. Harvard and the California Institute of Technology turned him down because of his age.

Lance, a graduate of Woodman High School in Van Nuys, Calif., plans to get a degree in physics and get at least one graduate degree at UCLA. He had an A average in the 9th and 10th grades and A-B average in the 11th and 12th grades.

His mother, Mrs. Sylvia Kerr, accompanied him to registration. His father is a salesman.

Cooperative to Get \$202,000

WASHINGTON (UPI) — The Rural Electrification Administration Thursday approved a \$202,000 loan to the Desert Electric Cooperative in Twentynine Palms, Calif.

Resort Reports

FIRST TAILOR SHOP

. . . in Desert Hot Springs has been opened by veteran Eugene Keller, who first learned his craft in his native Hungary, and his wife, at 11-896 Palm Drive. The couple lived in New York and the San Fernando Valley before retiring to the Whitewater area. Retirement was too dull, Keller found.

AFTER RUNNING

. . . back and forth between Palm Springs all summer to watch construction of the new Holiday Inn, Milt Hicks is back in town to stay.

CITY CLERK

. . . Shirley Henry, for four weeks vacation, spent the first week at the beach, then headed for Spokane, Wash., to visit her parents.

THAT PICTURE

. . . of teachers in Palm Springs Unified School District, printed last Wednesday, caused some dropped lips among the worthies. It seems that the shot was taken during an intermission of the briefing meeting Tuesday, inattention was prevalent because there was nothing to draw attention, yet the caption compared the teachers' attitude to that of day-dreaming students. The entire thing was caused by the photographer shooting at the wrong time.

Warren Linville Scheduled for Surgery Today

Warren Linville, personnel director of the Palm Springs Unified School District and former principal of Nellie N. Coffman Junior High School, is scheduled for surgery in Desert Hospital today.

A hospital spokesman reported the surgery had been scheduled by Linville's private physician.

"WHAT ARE YOU - SOME KIND OF NUT?"

Actually our canine courier is perfectly sane. He's just doing his best to acquaint hot, weary humans with the virtues of Climate Control by Chrysler. For only pennies a day the entire family can enjoy the invigorating freshness of whole-house air conditioning. Climate by Chrysler keeps your home wonderfully livable all summer long, and throughout the rest of the year too. An exclusive electrostatic filter purifies the air you breathe, traps dust and dirt, destroys airborne bacteria, eliminates fumes and odors. You can have Chrysler air conditioning now—in new home or old—and for much less than you might think. If you have a warm air furnace much of the cost is already covered. And air

conditioning specialists will help you plan the most economical, efficient unit for your home. Chrysler Airtemp manufactures a complete line of quality-engineered climate control systems. By complete systems we mean systems for every type of requirement, whether it's residential, commercial, or industrial.

The name and address of your nearest Chrysler Airtemp dealer can be found in the yellow pages. Call him soon or simply send in the coupon below.

INAUGURAL CRUISE of S. S. Matsonia's "Sail with the Stars," found the three Crosby boys and the Gordon MacRaes aboard. Also on shipboard for an Hawaiian cruise are Jan King and her nephew Bill Wright, shown here with the Crosbys and their manager Pete Pettito. From left, are Lindsay Crosby, Dennis Crosby, Pete Pettito and Bill Wright, Jan King and Phillip Crosby.

It's a Fred MacMurray Year

HOLLYWOOD
By VERNON SCOTT
UPI Hollywood Correspondent
HOLLYWOOD (UPI) — They said it couldn't be done—but Fred MacMurray is accomplishing what scores of other stars have failed to do.

He is starring in a TV series and movies simultaneously. Two years ago he was out in left field. Top film roles weren't coming his way and his video appearances were restricted to occasional guest shots.

Many thought Fred had had it. Some had written him off the books as a fine performer who was out of style.

But along came Walt Disney and the TV show "My Three Sons." All of a sudden the likable MacMurray is more in demand than Frank Sinatra and Marlon Brando.

What's more he's not a pain in the neck to work with, as is the case with some of the current hot shots.

Other stars have attempted to work in the double harness of motion pictures and television only to find themselves dead in both mediums.

George Gobel, Eve Arden, Liberace and others discovered overexposure can be as fatal as a freeway wreck.

"Maybe I've managed to keep my head above water through luck," MacMurray said during a lunch break on his ABC-TV series. "I've had some good pictures lately and the show is booming."

The highly rated "My Three Sons" has been renewed for the coming season and Disney has made a fortune on Fred's films, "The Shaggy Dog" and "The Absent Minded Professor." He currently is making a third picture for Walt, "Bon Voyage."

"A lot of actors say you can't do both because people won't pay to see you in movies when they get you for free on TV," Fred said.

"So far it hasn't hurt me. If the television show is worthwhile and the movies are well made and interesting, audiences will look in on both of them."

T.V. Corporation Is Enlarging

Acquisition of two community antenna television (CATV) systems and a microwave operation in Montana was announced today by H & B American Corporation, parent firm of Palm Springs Television Co.

This brings to 16 the number of CATV systems the publicly-owned company has acquired in an investment of more than \$9,000,000. The newly acquired CATV companies are Missoula TV Cable Co., Missoula, and Big Mountain TV Company, Whitefish.

VILLAGE VARIETY

by Hildy Crawford

One of Palm Springs' favorite entertainment spots, El Mirador's Starlight Patio, is undergoing major changes. It was announced this week by manager Herb Jensen. The romantic canvas top that opened to the stars (it also opened to the rain... remember when Bud Graves' art show was almost rained out?) is gone and is being replaced by a new and higher ceiling. It will be twilight blue with a twinkling star motif and a three-foot paneled between ceiling and walls, to afford a glimpse of the mountains.

The Starlight Patio, scene of so many fabulous parties (remember the Helms-Hoffman party when Betty Hutton sang?) will continue to be so, but will have a daytime role as a smart breakfast and luncheon spot.

The change is part of the hotel's million dollar expansion program, which includes new refrigerated air conditioning throughout the hotel.

When the beautiful new Holiday Inn opens the last of this month, manager Gerhard Knaak announces that popular Billy Allen and his orchestra will be the headline attraction.

With Gerhard's background as master chef, you just know he is interested in the gastronomic side of the hotel too. He says the dining room will seat up to 300

persons and can be partitioned off for smaller groups. He also promises a menu that will offer a wide selection and with figures on the right hand side that can be read without wincing.

The Ranch Club starts its new season with tonight's opening of its Corral Room, with the Round Up Room opening for dining the following Friday.

Jan King (Bob Hope's script secretary) didn't get to go to England with Hope where he's making the "Road to Hong Kong" with Bing Crosby, so she went to Hawaii instead on the SS Matsonia's first "Sail with The Stars" which featured the three Crosby boys, Lindsay, Dennis and Phillip. Flying back to the mainland, Jan was back in Palm Springs long enough to re-pack and take off with her mother for a business trip to the mid-west. They will be away for a month.

Incidentally, the idea of the "Sail with The Stars" program was former Villager Ted Grouya's and Ted has secured top names for the cruises. Ted's with a San Francisco travel service that is a branch of E. F. MacDonald enterprises. The big news in the Grouya family is the addition of a little daughter Heidi Elizabeth, who arrived this summer to join her big brother 18-month-old Theodore II.

New sign in front of the Desert Inn announces that Bobby Ramon is opening there on October 6.

Burly, bearded Mickey Finn, whose name has been noted on screen credits for two of the year's big films, "The Alamo" and "One Eyed Jacks," has not deserted his first boys' work that has always been close to his heart. This summer, between engagements, he went up to Hume Camp in the High Sierras and took boys on pack trips into the mountains.

Playing duo at the Biltmore the other evening, were Bill Friml and Larry Foy. Afterwards Bill played a few numbers from his father's "Vagabond King."

Celebrity Lounge at Howard Manor will have Latin offerings this season. There now and through Dec. 15 is the Evaro Trio, which will be replaced mid-December by Don Tosti, who was so successful last season. Don

MR. RINKY-TINK RETURNS tomorrow night to the fun-filled Gay 90's mood of Chi Chi Clubs' "Gilded Cage." This star of song, rib-tickling comedy and hilarious, set-to-music humor, joins popular Jeanne Keller for a toe-tapping, shoulder-shrugging musical riot of laugh and yocks through October 5th.

has been at Tahoe's Cal-Neva all summer.

Pat Barbara will remain in the Manor Room through the first of the year and, perhaps, on through the season. Hear that Pat's accordion playing vocalist, Tony Gray, is slightly terrific. Tony is maestro Jerry Gray's brother; looks like Frankie Laine; and sounds like Louis Prima. This could be a great combination.

Around Town

... with Hildy Crawford

Lunching in the Signature Room with her younger son Conrad was Ginny Simms half-way between the two places where she has been spending her summer, North Shore Beach & Yacht Club and the house she has rented at Lido Isle.

Ginny is hosting a party at North Shore tomorrow night, honoring water skiing champion Mundo Villegas, who came here from Acapulco. Gathering at the cocktail hour, guests will see "Acapulco Ski Follies," starring Villegas and his Aqua Maids. The ski champ doesn't just water ski, he soars through the air propelled by a huge canvas kite and towed by a speeding motor boat.

After dining and dancing there will be a floor show starring Ginny and Ish Kabibble.

Announced this week by the Bill Codys is the early summer wedding of their daughter Diane Louise, who married Richard Quaglan LeDuc in Baja, California in June.

Diane, who attended St. Theresa School and Palm Springs High School, was in Dominican Convent in San Raphael last year. The bridegroom is the son of Mr. and Mrs. Robert W. LeDuc of 1133 North Calle Marcus.

The young couple are in Cata-

lina this week, but will be at home at 1351 Ramon Road when they return.

Jaque Cole and son Tommy were having lunch at the Signature Room one day this week. Tommy will be a student at Palm Valley this year and brother King has gone to Claremont where he is a sophomore at Webb School.

Palm Springs' only 18-hole golf course, out at Ranch Club Estates, starts the new fall season with a new name. Looking for inspiration to the 10,831-foot mountain that towers above and shelters the Palm Springs area, owner-builder Noel Clarke has chosen a name with a lot of meaning, San Jacinto Country Club.

Feeling that the Ranch Club name, long endeared to Villagers, is linked closely to the past while the Country Club takes its place along with other new developments that add up to Palm Springs future, Clarke felt the change imperative. So, now it's San Jacinto Country Club.

It seems strange to be starting a new fall season in Palm Springs without Jeane Bailard, who will not be coming back to L'Horizon this year. Ever since I first came to Palm Springs ten years ago, Jeane's smiling face has

been one of the first to greet me each fall.

Tanned and healthy after a summer at Carpenteria, Jeane always had energy and time for civic work. They will miss her at L'Horizon, where she has been manager since it was opened and at the Chamber of Commerce where she was a reliable dynamo ... all out for Palm Springs.

Jeane is at the family home in Carpenteria and it's a new one, built to replace the one that burnt last winter. Built on the mesa, where it overlooks the whole valley, it has a swimming pool and a guest cottage and is reported to be a livable, lovable place. Just the same I don't think Jeane can settle down to the quiet life and we'll be hearing about her plunging into some new interest.

Home from Reno, where she visited Ed and Bertha Robbin as she does each summer, is Joan McManus, all taped up from a rib-cracking lung, suffered when she encountered an old friend.

After several months of relaxing, sketching and painting in the cool sea breezes at Laguna and San Juan Capistrano, Jerry and Bernice Dreier have returned to their home on Highway 111 in the Thunderbird area.

Juniors Start Fall Season

The new fall season for Palm Springs Junior Women's Club starts tomorrow night, when the clubwomen hostess a second swim party to raise money for AuChau Kuen, the foster child they are supporting for the second year, under the auspices of the Foster Parents Plan Inc.

The swimming party, which

will be held at the home of Mrs. Richard Algier, 801 Calle Paul from 7-11 p.m., will require a donation of a dollar a couple.

Various projects for the coming year were discussed at the first official meeting held in Palm Springs Chamber of Commerce board room this week.

Mrs. Richard Hill and Mrs.

Ronald Jahelka hostessed the evening, serving chips and dips, hors d'oeuvres, and lemonade before the meeting. Small cakes, decorated in the club colors of pink and white were enjoyed by the members after the meeting. Each attending member was given a small corsage made of white crepe paper, and a pink banner on which was imprinted "Go, Go, Juniors," this being the theme of the evening.

A De Anza District Workshop is to be held on Saturday, September 23, at Palm Springs Elks Club, with registration starting at 9 a.m. Mrs. James Thompson, Americanism chairman, and Mrs. William Shupe, safety chairman, will be among district chairmen giving three-minute workshops.

Reservations have been made for Mmes. Richard Algier, John Neil, Richard Kimberly, Richard Hill, James Thompson, William Shupe, Ronald Jahelka, Gerald Pelton and the coordinators from Indio, Mrs. Noland Richter and Mrs. Charles Schwenck to attend the luncheon meeting. A very interesting and informative day is anticipated.

A membership tea is to be held on October 10, at which time young women interested in membership in the Palm Springs Junior Women's Club will be entertained. Anyone interested in joining the group may contact membership chairman Mrs. Ronald Jahelka, by phoning 324-4854. Other Juniors on the planning committee are Mmes. Jack Koehler, Richard Kimberly, John Neil, William Leoncio, Gerald Pelton.

County Democratic Women to Attend Cassini Show

High fashion and politics will serve as a double lure to Democrats of the Riverside County area as they join with more than 1,000 women from all parts of California to view the "Fashions and First Ladies" showing of the Oleg Cassini fall collection sponsored by Teas for TV on Saturday, September 16th at noon in the Beverly Hilton Hotel.

Amy B. Croft, treasurer of Democratic Women of the 38th Congressional District of Riverside County and director of the Fourth Supervisorial District for the same group, announces that those from this area planning to attend include: Lee Ann Nixen, Laura Fellers, Mrs. Claude Norris, Charlotte Burton, Mrs. Guy Campbell, Genevieve Dougherty, Marie Milliken, Martha Nastro, Helen Reynolds, Helen Lockwood, Hazel Cox, Doris Grubbs, Natalie Myers, Florence Fitzgerald, Ethel Van Derhoof, Lorraine Wallihan.

Mae Elizabeth Donnelly, Marjorie Dickson, Joel Brand, Mrs. William J. Brand, Virginia Strahan, Lorna Burch, Millie Spiegelman, Jerri Ray, Eleanor Childs and Mr. and Mrs. Robert Milner.

Mrs. Edmund G. Brown, California's First Lady heads the in-person guests of honor at the fashion luncheon. Oleg Cassini will personally introduce his collection at the event which honors First Ladies in Washington Mrs. John F. Kennedy and Mrs. Lyndon B. Johnson. First Ladies in California and honored guests attending in addition to Mrs. Brown, wife of the Governor, are: Mmes. Clair Engle, Stanley Mosk, Glenn Anderson, Alan Cranston, Bert Betts and Richard Nevins.

The Cassini Collection is presented in conjunction with Saks Fifth Avenue. Music is by Jerry Rosen and his orchestra.

Soroptimist Club Names Committees for Year

Chairmen of standing committees were named by Soroptimist president Polly Isenagel, when our Club held its regular Tuesday luncheon meeting at the Biltmore this week.

Committees are as follows, with the chairman named first: attendance — Tess Potter, Esther Weingarten, Luella Coffin; constitution and by-laws — Nellie Mae Bower, Katherine Finchy, Anita Buccino; classification and membership — Evelyn Barrick, Gurli Gilbert, Marie Ford; bulletin — Katherine Finchy, Pearl Millasich, Angie Martins; international good will and understanding — Viola Lukawiecki, Manci Elias, Dotty Stein; public affairs — Virgie Dragicevich, Evelyn Barrick, Gurli Gilbert; service objectives — Lucille Fostvedt, Mildred Jackson, Lucille Johnson; Venture Club — Mildred Ritchie, Gurli Gilbert, Luella Coffin; ways and means — Marie Ford, Anita Buccino, Virgie Dragicevich, Calista Stefan, Nellie Mae Bauer; civil defense — Gurli Gilbert; finance — Lee Bowen, Elsie Addes, Trixie Jarrette; ex-

tension — Esther Weingarten, Mildred Ritchie, Madge Holderman; program — Trixie Jarrette, Viola Lukawiecki, Elsie Addes; public relations — Lucille Johnson, Madge Holderman, Lee Bowen; publicity — Edna Brott, Viola Lukawiecki, Eileen Hair; amenities — Edna Brott, Angie Martins; parliamentary — Katherine Finchy; Sister Club — Calista Stefan, Manci Elias, Pearl Millasich; Girl Scouts — Dotty Stein, Tess Potter, Lucille Fostvedt; historian — Madge Holderman, Edna Brott; Crippled Children — Luella Coffin, Lucille Fostvedt, Calista Stefan; hospitality — Trixie Jarrette, Anita Buccino, Lee Bowen.

Program chairman Trixie Jarrette started the member biographical talks with Evelyn Barrick and Lucille Johnson.

Daughter's Betrothal Is Announced

Mrs. Risser Curtice of Minneapolis, and Norman Burr Curtice of Daytona Beach, Fla., announce the engagement of their daughter, Marilyn, to Lawrence Field Lippman, son of Mr. and Mrs. William August Lippman Jr., of South Westgate Ave., Brentwood. He is also the grandson of Mrs. Hay Langenhelm of Newport Beach, and the late Earl Hazelrigg of Sherman Oaks, and of William August Lippman Sr., and the late Mrs. Lippman of Palm Springs.

Miss Curtice is a graduate of Northrup Collegiate School and has attended the University of Nebraska and the University of Vienna. She is now attending the University of Southern California and is a member of Kappa Kappa Gamma.

Her fiancé graduated from Black-Foxe Military Institute and attended the University of Vienna. He is now a student in the University of Southern California and is a member of Phi Delta Theta fraternity.

A December twenty-ninth wedding is planned.

Projects & Personalities in DESERT REAL ESTATE

Friday, September 15, 1961

Page 6 THE DESERT SUN

PASSING THE HAT signifies the takeover of The Straw Hat, formerly Safari Villa, by the new owners, Mr. and Mrs. James Kelley, formerly of San Marino, who will make their permanent home and business in Palm

Spring. Handing the 'ownership hat' to Mrs. Kelley is Mrs. Jo Montagne, who handled the sale of the property through her North Palm Canyon realty office.

GARDENING IN THE DESERT

Colorful, Desert-Loving Shrubs Are Easy to Grow

Continuing last week's report of the Mexican Fire Plant: It has one point that might be considered as malevolent, over the years it seeds itself and gradually takes over more of the garden than you intended to allow. However, with the help of a good pair of pruning scissors, you might consider it as another sowing on the water bill.

Another shrub that calls for little choice of soil or care in cultivation is the Pink India Hawthorne. Peculiarly enough it generally grows to a height of about five feet but is apt to have a spread of about seven feet. From the end of January to well on into the summer it produces attractive pale clusters of pink flowers.

Its leaves might vary from a really light green to a deep bronze. The fruit might be termed as blue-black in color. It might be considered hardy as it grows in either full sun or semi-shade.

Pyracantha is Colorful

If you have a liking of a plentiful display of berries for Christmas decorations the Grabers variety of Pyracantha should take a prominent part with its large, red berries. Chinese Holly also will give you variety during the Yuletide. Naturally neither of these plants has colored berries at present but the middle of December will satisfy. Growing as high as nine feet the Chinese Holly acts as an excellent garden and is much at home in our desert; its luscious, spiny leaves will naturally vie with the green of the Pyracantha leaves.

We are probably repeating advice given to Mr. Amateur Gardener in past articles but geraniums — the common type — need a booster treatment at this time of the year now that you have

cut them back to a height of about six inches above the ground; and probably the best of the slips are planted with the same length below the surface as above.

Short Treatment Best

Bear in mind they thrive best in acid soil as do many other flowering plants so give them periodical treatments of iron chelates. Planted in a mixture of peat moss and sand and arranging them in only early morning sun they should thrive until the next approach of summer. Inasmuch as plant nourishment leaches through our sandy soil, light treatments in short periods are better than heavy treatments in long periods. Do not water heavily, keeping the soil damp but not soggy is important. Heavy irrigation will kill the plants from the roots upwards.

Another way of treating the cuttings is to plant them in pots until they fashion their own root system then transplant them into permanent beds. This system is probably more advantageous to the beginner as he or she could then better control the water input.

The Martha Washington — sometimes alluded to as the true Pelargonium — requires a different handling. In its growth it can stand about three hours more of sunshine. Inasmuch as they are pruned at the end of each May because they will have finished blooming it has a shorter period of flower growth than the lowly Geranium. The Ivy Geranium, or Climbing Geranium, whose leaves are a small duplicate of the Martha Washington's leaves, throw out a dainty bloom and have an entirely different odour.

—T.G.M.

Local Group Will Join in Building Fete

Palm Springs realty and finance groups tonight will trek to Riverside to participate in a preview showing of the new First American Title Company Building.

The beautiful new colonial-style structure will be formally dedicated at an "Open House" to be held Monday and Tuesday, from 10 a.m. to 4 p.m.

The two-day event officially opening the firm's new quarters will feature tours of the building conducted by members of the staff. The public is invited to participate in the festivities, according to William G. Was, vice president and manager.

Located at 3625 Fourteenth St., at the corner of Orange Ave., the structure represents the latest action in the company's efforts to provide the best possible title service, Was said.

In designing the firm's new home along "Early American" lines, he noted, the architect not only utilized a motif symbolic of the company name, but also captured the spirit of permanence and stability which characterizes First American Title Company of Riverside.

Unique in its construction is detailed craftsmanship attesting that the fine old art of ornamental, hand run plastering is not completely lost. Approximately 4,500 feet of molding, dentils and fluted columns were executed by Canadian-trained craftsmen.

The steel, concrete and brick structure features a two-story formal glass entry opening into the foyer on Fourteenth St. Enhancing its appearance are balconies at each end, which will accommodate overflow crowds from the second floor meeting room during favorable weather. This upstairs conference room will be available to outside organizations for meetings.

Major working facilities are on the ground floor. With 14,000 square feet of work area, the new offices enable First American's trained and experienced staff to give the most complete and most personal service available anywhere, was stated.

Completely air conditioned, the building has underfloor electric power and telephone systems for future expansion. Construction was accomplished in the near-record time of 105 working days by the Vern L. Miller Co., Inc. The architect was Dale V. Bragg.

Group Starts Hotel In Palm Desert Area

Palmolo Inc., a group of La Jolla and Minneapolis investors in desert properties, has started construction on an 11-unit apartment hotel in Palm Desert.

Tumbleweed Inn is the name selected for the apartment hotel which the owners feel will answer the needs of the young executive and his family. Rates will be attractively set enabling families to enjoy a fine desert holiday for a weekend or a month.

The hotel, which is scheduled for completion before the Thanksgiving holiday, will feature completely furnished one and two bedroom units, each with built-in kitchen, private patio and individual barbecues. The swimming pool is specially designed for children's safety.

Each unit will be completely private from the other featuring sound proofing, ample storage, breakfast bar, dining area and sliding glass doors to the patio.

Members of the Palmolo corporation are Willis M. Allen of LaJolla; James R. Ridgway, Rancho Santa Fe and Minneapolis; Donald E. Ryan, Los Angeles and Paul J. Schmitt of Minneapolis.

Pat McKenney and Phil Hussey of Coachella Valley Building Designers are building the new hotel which is located at Verba Santa and Tumbleweed Lane.

Television, Safety Plans Reported to Hotel Group

Affirming its stand to back and promote Translator Television in Palm Springs, the Palm Springs Hotel and Apartment Assn. Inc. held its annual meeting Tuesday.

The Board of Directors, representing a total of 120 paid up members, heard an announcement that Translator stations would move its facilities from Edom Hill to the Santa Rosa peak, and immediately after the move, would start full time signal transmission.

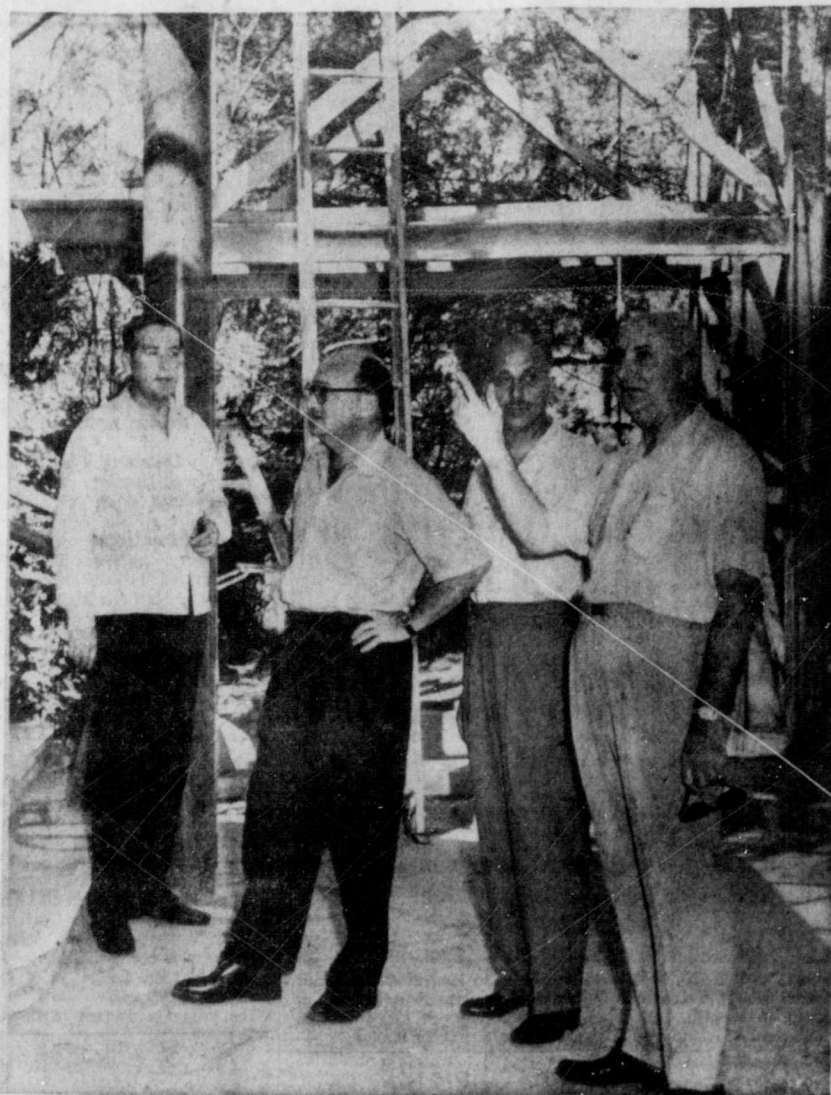

The Hotapa television committee, made up of Steve Platt, chairman, William Foldes, Adele Colga, Ray Ryan, Irwin Schumann, Eddie Davidson, Judd Sessions, Harry Taylor, R. L. Lewis, Ken Parker, and Saul Ruskin, plan an immediate campaign to sign

up subscribers and secure pledges necessary to assure permanence of low cost television.

The board also discussed the acquisition of the new signs for hotel swimming pools which will be displayed locally giving the rules for pool safety. The signs were made available to the Association by the Chamber of Commerce.

The board also considered the hiring of a secretary to work in the Association office and help with the keeping of records. The new employee of the association will be selected by the office operations committee.

The next meeting of the Association will be held Sept. 25 at 2 p.m. at the Chamber of Commerce to attend to other pressing matters before the governing body.

ON A TOUR of the newly redecorated Tennis Club, during the construction of the new elevator (seen in background) Harry Chaddick, owner at right, points out to manager Barry Kearney, Scotty Rubin and Irwin Berzon how

it will be when it is finished. More than \$250,000 has been spent on the club this summer, and will be ready for its opening about mid-October. (Desert Sun Photo)

BUILDING PLANS occupied the attention of Ernie Dunlevie, left, and Dave Bixler at Bermuda Dunes Country Club Thursday. Bixler, just appointed sales director at Bermuda Dunes, said plans are well along toward completion. They involve the expansion of the men's and women's locker rooms and bag storage room at the picturesque links. Altogether 3,500 square feet are being added and will be ready for use Oct. 1. Bixler, with 15 years of real estate development and sales coordination activity behind him, was a Palm Springs resident back in 1947.

Aerial Tram Work Routed To Avoid Populated Areas

In an effort to anticipate any objections to the flying of materials up the site of the Mt. San Jacinto Aerial Tramway, United Helicopter and E. L. Yeager & Co., have designed a specific route to avoid any populated areas.

The two companies have routed the helicopter up at the airport, to fly up the Tahquitz channel, and then up any one of the foothill ridges to the Tramway site, Yeager reported.

The chopper carries some 800

Salton Area Water Annex Is Completed

COACHELLA — The annexation of 72,000 acres of land including Salton City to the Coachella Valley County Water District became a reality when Secretary of State Frank M. Jordan signed in Sacramento the legal documents that affirmed the district and the annexation.

The annexation of Salton City and the adjacent area was brought about by several months of intensive work on the part of the Salton City Chamber of Commerce, developers, residents and water district officials.

The annexation is the culmination of a long effort to provide the Salton Sea area a permanent fresh water supply.

As a part of the annexation proceedings the entire water system within the boundaries of the Salton City Community Services District has been conveyed to the Coachella Valley County Water District. The water system facilities including 13 miles of 16 inch transmission lines from Travertine Rock area to Salton City; two wells capable of producing approximately 1,200 gallons of water per minute; a 100,000 gallon water reservoir and a water distribution system at Salton City already totaling over 100 miles represent an over-all approximate investment of one and ¾ million dollars by various developers at Salton City. It was last December that the 16 inch water transmission line to Salton City was completed at a cost of \$720,000.

To initiate the annexation proceedings a petition was presented to the Coachella Valley County Water District by almost 75 per cent of the registered voters within the Salton Community Services Districts. There were no protests against the annexation by any person within the area to be annexed.

Finance Plan May Boost Home Sales

A new collaborative plan moving California's badly-shaken second trust deed market into sound financial channels where it can act as a valuable economic aid to home buyers and stimulate the housing industry.

This was announced by Edward L. Johnson, president of Financial Federation, Inc., who said that under the new program Pacific Finance Corporation will accept applications for secondary financing following conventional first mortgage loans made by Financial Federation affiliated associations.

Coachella Valley Savings and Loan Association on Palm Canyon Drive is one of the eleven affiliated associations comprising Financial Federation, Inc.

Pacific Finance, one of the nation's leading sales and consumer finance companies, is headquartered in Los Angeles.

Held Great Help
"The plan will be advantageous to everyone concerned," Johnson said, "and will give the State Administration an assist in its job of cleaning up the problems caused by the past operations of 'trust deed exchanges' in the second mortgage field."

"It should materially help to revive an important and legitimate means of home financing that has been badly hurt by inexperienced and irresponsible management. Both the State's Corporation Commissioner and Savings and Loan Commissioner have reviewed the plan."

Advantages Told
He listed these advantages it offers to borrowers:

1. They can buy homes they might not be able to purchase without secondary financing, obtaining up to 90 per cent of value through any one of Financial Federation's affiliates.
2. They will save time and money by completing both loans at the association office, with only one appraisal, one escrow, and no fee for the secondary financing.
3. They will avoid secondary paper discounting, the cost of which is inevitably passed on to the borrower in one form or another.

4. They will save time and money by making one monthly payment for both loans at the association office, with repayment schedules designed to give the home owner equity in his home faster, which can result in substantial savings in interest.
5. Their personal financial problems will be understood and considered because the lenders will be experienced and substantial firms. In the past, unjustified and unwarranted harassment by individual holders of second mortgages has been common.

Expensive Financing
Johnson pointed out that hearings held by the State Corporation Commissioner earlier this year revealed that home buyers have paid dearly for secondary financing.

The primary advantages of the program to the savings and loan associations, Johnson said, are that they can make many first mortgage loans that would be impossible without secondary financing, and their first loans will be better protected with seconds in the hands of an experienced company.

Recent state legislation permits California savings and loan associations, to make loans up to 90 per cent, but such loans are restricted to single-family owner-occupied homes, the maximum loan cannot exceed \$22,000, there

can be no secondary financing, and the aggregate of such loans which an association may make is limited to 5 per cent of its total assets.

High Yield Attractive
Tracing the background of the difficulties of the "trust deed exchanges," Johnson explained that they began to appear in 1956 with inexperienced investors attracted in large numbers. The appeal lay in the idea of participating in the California real estate boom with a promised 10 per cent yield on their money.

"Investigations by State and Federal authorities have revealed in clear detail the practices in the second mortgage market which grew into a public scandal," he said.

Government Probe Hurt
Unfavorable publicity arising from government investigations was noted by potential investors, and the flow of money the companies required to remain in business was reduced to a point where they faced bankruptcy.

Program for Action
"Our program aims to get it in operation again, making more funds available to home buyers at less cost and under the most convenient circumstances. An inevitable consequence will be the spurring of both the home construction and real estate industries."

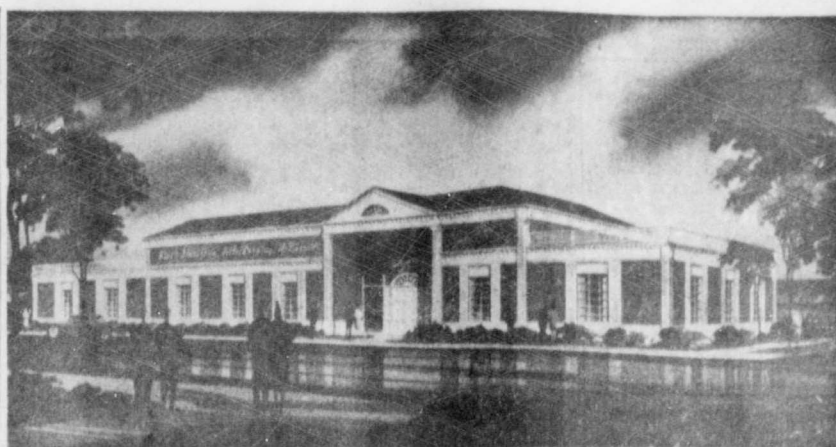

"By providing more money, through orderly channels, the discounting of second mortgages can be eliminated. Instead of having to inflate their prices and discount inflated second mortgages, sellers will be able to sell to credit-worthy buyers at reasonable prices, with the latter saving the difference."

FIRST AMERICAN TITLE CO.'s beautiful new colonial style building in Riverside opens this weekend in a series of open house programs. The first will be for real estate and financial personnel today and Saturday. The building will be open to the public Monday and Tuesday.

TV Service Promised

PALM DESERT — Residents of the new "active" retirement community, Palm City under development here will be offered excellent television reception soon with the completion of a master antenna tower on property adjoining the project.

Nels Severin, president of Marne Development Co., Inc., said clear reception on seven channels will be provided when the tower and cable - laying is completed around Nov. 1.

Twenty-four-hour service will also be offered, he said. "Residents who elect to have this popular optional feature will pay only an installation charge plus a small monthly fee," Severin said.

The Palm Springs area is "blind" to TV reception, he explained, because it is in a land pocket, surrounded by mountains. Desert Cable TV, Inc. is installing a master antenna tower to which the homes will be linked by cable. The company is now laying cable underground in the street

A "FIRST" in history was marked when this battle-ready HAWK missile firing battery was airlifted to its firing site from its home installation at Twentynine Palms. The missile is a

ground-to-air one, and its battery includes 90 officers and men, plus supporting equipment. The lift was to San Clemente Island off the coast of Southern California.

That Ivy League Look Has Long-Reaching Background

By WALTER LOGAN

NEW YORK (UPI) — There has been confusion in some circles as to whether J. Press invented Yale University or whether it was the other way round. Both, of course, invented what is now called the "Ivy League Look."

For the record, Yale got its charter back in 1701 although it fooled around at Killingworth and Old Saybrook, Conn., for a few years and didn't move to New Haven until 1718. J. Press got started in 1902 but its predecessor was in business in the 1880's.

The "J" is for Jacobi. His specialty was "fine tailored clothes for gentlemen." The firm has maintained that tradition although in the postwar years it has gone heavily into ready made suits for Ivy League and University of Virginia undergraduates.

The firm now is run by Irving Press, 55, a Yale Law graduate, who is president and manages the New York end of the family business, and by his brother Paul, 50, who attended Pittsburgh and Columbia (Ivy) and handles the New Haven end.

With the end of World War II, Ivy League alumni were heartily sick of uniforms and yearned for the way of life they were used to — the Ivy look. Finding the mar-

ket loaded with English drape suits with monstrous padded shoulders and floppy trousers, they turned to J. Press.

There were so many orders that the firm bought up British woolsens, built some factories and began producing ready-to-wear, Ivy League style. It was what the firm had been making for 60 years but there was just more of it. By 1954 it had swept the country. Now it is about all that is sold.

"You can look at the classbook for the Yale classes of 1925, 1935, 1945 — even 1955 — and you'll find the students look very much the same in the same type of clothes except for those who wore Hoover collars," Irving Press said.

The Ivy League Look became the rage and other manufacturers began turning out basically the same thing. But, Press complained, some of them made "such narrow lapels they almost disappeared. Also the pants."

The nice thing about the setup from the J. Press point of view is that undergrads who can buy a ready made suit for \$85 go into business later, then enter an upper bracket, become corpulent and can afford the custom-tailored clothes which start around \$200 to \$245.

There are stores in Cambridge, Mass., in New Haven and in New York ("a sort of a catchall for transients") and five salesmen, called travelers, who visit all parts of the country. The Ivy alumni are fiercely loyal and a Harvard graduate in Chicago, for example, might convert a North-western man to the Ivy look.

The hallmarks of the Ivy Look are well known — straight hanging three-button suits. No two-button. No double breasted suits except for blazers. Top fabrics this fall are cashmeres, and suits are dark.

New Director At Haggerty's

Appointment of Martin Dibner as creative director for Haggerty's stores has been announced by Allen H. Salvesen, president of the Southern California chain.

Salvesen said Dibner is planning innovations that will include new concepts in customer service, store promotion and merchandising for the immediate future.

THE HARMON FORECAST

HIGHLIGHTS

Though this Saturday is far from being the biggest weekend in college football, it does have one distinction, it's still the first weekend — the official beginning of the 1961 season.

And many 1960 conference champions will play in Saturday's feature attractions, though few of them will be putting their titles on the line this early in the season.

The undefeated and untied Border Conference champions and Sun Bowl champions, the New Mexico State Aggies, meet Arizona State College of Flagstaff.

And the Border champs, rated 32nd in the nation by The Harmon Forecasts at the end of last season, should have no trouble rolling up a 52-point victory.

Utah State and Wyoming, co-champions of the Skyline Conference, tackle Texas Western and Montana respectively. The Utes will be 13 points stronger than the Texans, and the Cowboys from Laramie will prove four touchdowns better than Montana.

In one of the headlines of the day — this one in Miami, Florida — the Hurricanes from Miami meet the Panthers from Pittsburgh. Harmon rated Pitt

number 25 in the nation last year after a 4-3-3 season, and they will start out the '61 campaign with an 8-point win over Miami.

VMI won the Southern Conference crown in 1960, and the Keydets open at home against Marshall of the Mid-American Conference. VMI should clip the West Virginians by 23 points. Wichita, last year's Missouri Valley Conference champions, also meets an M-A Conference team — Toledo. The Shockers from Kansas will whip the Ohioans by three touchdowns.

From the state of North Carolina comes last year's NAIA foot-

ball champion — as well as the North State Conference champ. Lenoir-Rhyne takes on Wofford College in the opener for both teams, and the small college title-holders should have things pretty much their own way with a 16-point victory.

Finally, still in the South, rumbles are again being heard from two powerful major Southern independents: Memphis State, rated number 29 by Harmon last year, and Mississippi Southern. The Tigers from Memphis will knock off The Citadel by 19 points, and M. S. is 17 points too strong for Arlington State, Texas.

Collins Two Up In Seattle Open

SEATTLE (UPI) — Spiced by a \$10,000 hole-in-one by Miller Barber, a golfer who really needs the money, the \$25,000 Greater Seattle Open went into its second round today with Bill Collins' first round 64 — six under par — holding a two-stroke lead.

Collins, a 33-year-old player who hails from Baltimore and plays out of Miami, demonstrated he has recovered from the wrist injury which put him in a six-week slump earlier in the year.

Big Bill needed only 29 putts over the 6,328-yard Broadmoor Golf Club course. His only bogey was on the 7th hole — the same hole where Barber shot his perfect 237-yard beeline to grab the \$10,000 bonus, \$8,600 of which will come out of the pockets of Lloyds of London. The other \$1,400 is the premium paid by the sponsoring Seattle Town and Country Club.

Lanky Al Balding, Toronto, Ont., established the early pace of the first round with a 66, soon equalled by Jacky Cupit of Longview, Tex., and Dave Hill, a 25-year-old Denver pro who took top cash in his home town's \$25,000 open last week.

Thursday's best comeback effort came from Marty Furgol, Coghlin, Ill., who went into the second nine two over par, but

racked up three birdies and an eagle for a five-under-par 31 on the back nine and a 67 total. Barber, helped mightily by his hole-in-one, also turned in a 67 along with Gordon Jones, Orlando, Fla.; Tony Lema, San Leandro, Calif.; Dave Marr, Sun City, Ariz.; Doug Sanders, Ojai, Calif., and Charles Sifford, Los Angeles.

As for Barber's reaction to his hole-in-one, which earned him three times as much as his total earnings for 19 tournaments this year, the 29-year-old Texarkana, Tex., bachelor exclaimed, "I jumped out of my shoes. I still can't get over it."

Nicklaus and Carr Lead in Pebble Beach

By DON REED

PEBBLE BEACH, Calif. (UPI) — Joe Carr, the affable Irishman, and Jack Nicklaus, the bounding Buckeye, went shooting today for a chance to battle each other in the finals of the USGA National Amateur golf tournament.

Already rated as the two finest simon-pure shotmakers in the world, their path is blocked by a pair of youngsters who know nothing of golfing greatness.

They are Marion C. Methvin and Bud Wysong — and all they can do is drive, approach and putt like demons. Carr comes up against the Texas strongboy, Wysong, Nicklaus faces Methvin, a Louisiana State College athlete from Little Rock, Ark.

Play 36 Holes
The distance is 36 holes — the same as it will be for the finals Saturday.

A 39-year-old Dubliner, Carr is bidding to become the first man from Great Britain to win the United States Amateur crown since Harold Hilton of England took the championship way back in 1911. Nicklaus would like to add to the title he won two years ago in this event.

But Wysong and Methvin, a pair of sharpshooters who power the ball from the tee and putt as though the greens had tracks to the holes, could very well dash their hopes. Each has been extended to the 18th hole only once so far in the tourney.

Snider Blasts Dodgers to 7-6 Win Over Bucs

LOS ANGELES (UPI) — The Los Angeles Dodgers were filled with hope today that they still were alive in the pennant race thanks to the heroics of Duke Snider Thursday night.

The old pro came through with a three-run pinch homer in the bottom of the ninth inning to bring the Dodgers a 7-6 victory over the Pittsburgh Pirates.

But tonight the Milwaukee Braves open a three-game series and the Dodgers still were faced with the task of overcoming a five-game lead held by the Cincinnati Reds.

The greatest southpaw pitcher in baseball history, Warren Spahn, goes after his 20th win tonight in quest of his 12th season with 20 or more victories.

Johnny Podres had been scheduled to oppose him, but the top Dodger hurler is suffering from a cold and will be replaced by Sandy Koufax, 15-11, also a lefty.

In Thursday night's game, the Dodgers were about to lose their third straight as they trailed, 6-3, going into the bottom of the ninth. But Frank Howard singled in one run and then Snider came to bat for Charlie Neal and hit Elroy Face's forkball over the right field screen with two men on base.

Ayala Upsets Hoad

PARIS (UPI) — Luis Ayala of Chile, who turned professional only last week, entered the quarter-final round of the men's professional tennis championships Thursday by upsetting Australia's Lew Hoad, 5-3, 6-2, 4-6, 6-2.

Sign Three Players

DETROIT (UPI) — The Detroit Red Wings of the National Hockey League today announced the signings of left wing Vic Stasiuk and right wings Al Johnson and Jack McKenzie.

GONE WITH the windup is Roger Maris' last chance for a homer during a doubleheader with the Chicago White Sox. Maris, 16 up on Babe Ruth's 1927 pace in July, is given little chance of hitting 60. (UPI Telephoto)

No M-MHRs As Yanks Downed; Dodgers Win

United Press International
Babe Ruth's whirlwind finish of 1927 appears today to be killing off the chances of Roger Maris and Mickey Mantle to set a new home run record.

The chances of either equalling or breaking Ruth's mark of 60 homers in one season were dimmed near the point of extinction Thursday when both went homerless in the New York Yankees' 8-3 and 4-3 losses to the Chicago White Sox.

With 56 homers in 147 games, Maris now must hit four in his next seven games to equal the record within the 154-game limit prescribed by Commissioner Ford. With 53 homers, Mantle faces the almost impossible task of hitting seven—or an average of one per game for the next seven games.

The Yankees play a 162-game schedule this season but Maris is standing by his ruling that Maris or Mantle must reach 60 within 154 games to be officially credited with tying the mark.

Play Detroit
The Yankees sluggers go into the last-ditch stage of their long pursuit of the old mark this week-end with a four-game series in Detroit beginning with a two-night doubleheader tonight. At this stage of the 1927 season Ruth was hitting 'em faster than ever—he hit six in his last eight games and four in his last three—but Maris and Mantle are slowing down. Maris hasn't hit one since Sept. 9 and Mantle since Sept. 10.

Maris had three hits in eight trips and Mantle went 0-for-7 in Thursday's doubleheader. Home runs by Floyd Robinson and Jim Landis paced the White Sox' opening-game victory which snapped a 13-game Yankee winning streak and then Al Smith's fourth single capped a three-run ninth-inning rally that enabled the White Sox to deal relief ace Luis Arroyo his fourth loss in the nightcap.

The Yankees' magic pennant-clinching number was reduced to six when the Kansas City A's beat the Detroit Tigers, 5-2, and the Minnesota Twins scored a 3-1 victory after a 5-1 loss to the Los Angeles Angels in other AL games.

Pioneer Challenge Tilt Set

By ED BARNUM

YUCCA VALLEY — The third annual Pioneer Pass Golf Challenge is scheduled for Oct. 7-8, according to Al Fisher, chairman of the PPGC.

The Challenge has been set up in an effort to further interest in the development and improvement of the Pioneer Pass road between Pioneer town and Big Bear Lake.

The "back country" road that is now traveled by sturdy jeeps, has been improved by the county and Forestry Service in the past few years, but still lacks accommodations for modern day automobiles.

The actual gold tournament is played on two courses. Nine holes at the Yucca Valley Country Club and nine holes at the Moonridge Golf Course at Big Bear.

The 19th hole has a fairway 9 1-3 miles long. It is the Pioneer Pass road and the golfers "play" this distance with each contestant equipped with a ball spotter and score keeper.

Nine intermediate stops or "check points" are located along the route where the golfers are checked in and information passed on in regards to weather, road conditions and scores. The information is transmitted by radio from one spot to another.

Fisher pointed out that the past two Pioneer Pass Golf Challenges have been outstanding successes and with the entry lists growing day by day, this year's affair appears to be shaping up to be another top flight golf challenge.

12 Race Events Slated for 14 Day L.A. Fair

POMONA (UPI) — The 23rd annual Los Angeles County Fair racing season opens today with an expected crowd of some 11,000 fans taking in the 12-race combination of thoroughbred, harness and quarterhorse events.

Highlighting the first card of the 14-day meeting at the half-mile oval is the 1 1-16 mile \$7,500-added California Thoroughbred Breeders Association Marian Stakes for 3-year-old fillies.

C.V. Whitney's Dance Rhythm, a daughter of the great Native Dancer, is favored over nine other distaffers in the opening-day stakes.

The Pomona Track, affectionately known as the "Bull Ring" throughout the racing set, has a new six-furlong chute for the meeting. The grandstand also has been renovated during the year and sports a new coat of paint.

THE DESERT SUN Page 11

Advertising is Not Charity

Palm Springs and the surrounding burgeoning desert area, is today in the annual transition stage, from a comfortably busy summer to an extremely busy fall, winter and spring season. Soon thousands, attracted by our winter climate and the lure of the desert will be here.

In the vanguard of the returning army will be the "Me, Too" boys and girls, bent on making the fast buck with outwardly attractive appeals to snare a share of the advertising dollar or in various other money-raising programs.

Under closer scrutiny, the appeals are less attractive. The Me, Too contingent, out-of-town newspapers, publications which suddenly make their appearance in the fall and disappear as suddenly in the spring, other schemes disguised under the cloak of advertising, is not too interested in the results obtained for customers.

Advertising is not a charity. Placed wisely and with the only criterion—results—its returns keep the business wheel well oiled. But spread and split in many ways, regardless of the good it will do, it is about as effective as a scatter-gun against big game. Its range is just too short.

Concentrated where it will do the most good, have the widest daily readership and in an established medium, advertising does wonders in results.

This, then, is an appeal for your own selfish good to concentrate your advertising dollars in established local media — your newspaper, radio stations, local magazines — to bring the results necessary to make your business and your community grow. There is no other valid criteria.

If your heart bleeds for the out-of-town hotshots — here today and gone tomorrow — give them a buck and charge it to donation. That applies, too, to the programs asking for subsidies and to the thinly disguised charity appeals. Charge 'em off as gifts, if give you must.

It sums up to the question: Should you spend your advertising dollar just to make someone happy, or rather as an investment to keep the wheels of your business and your community whirling.

The Old West is Passing

Palm Springs, although it cannot claim him as a permanent resident, suffered a personal loss this week in the death of Leo Carrillo. Steeped in the tradition of the old West, he was a link between the past and the present.

Mr. Carrillo, as he was often called, was a frequent visitor to the desert area and provided enjoyment and spread happiness to many in his appearance in Desert Circus parades and other civic events.

He may not have called Palm Springs his home but he added to our pleasure on many occasions. He will be missed here.

Other Editors

(Christian Science Monitor)

Early in the present session of Congress one of the more important messages from President Kennedy dealt with the prospect of tax reform. He did not anticipate a general revision before 1962 but did propose, among other items a tax credit which was intended to encourage investment by industry in modernization and new equipment.

If this had taken the form of a simple liberalization of the rules for calculating depreciation for corporate income tax purposes, it would have been welcomed by business and probably would have been accomplishing something of its purpose by now. But instead, it was wrapped in so many complexities in an effort to assure it would not benefit any except "new" investment that its application would have been highly uncertain, confusing, and in many cases unfair.

It may be that the seriousness of the American lag in replacing obsolete machinery, as compared with countries it has

helped to do the same thing, has been overstated; but the situation certainly is serious enough to command attention.

Accountants and industrial executives familiar with the problem believe that any of four or five methods could be used to permit more realistic allowances. One would allow the taxpayer to choose any period not less than five years in which to charge off the cost of new equipment. Another would accelerate the scale by which present write-offs are permitted. A third would take account of difference in buying power of dollars spent for the original equipment and those which have had to be saved in order to replace it.

Whatever is done about the depreciation problem, it should not be a gimmick favoring some and tying others in knots but should be a straightforward approach applying to all businesses alike and permitting businessmen to make as many as possible of their own decisions.

Remember When . . .

SEPTEMBER 15, 1951

More than 4,000 acres of watershed mountain land in the mountains north of Palm Springs was swept by fire. The fire was concentrated in Millard Canyon, and burned for more than 37 hours before being brought under control.

Harry Oliver, who was rumored to be moving to Endoline, Nev., said that his kids just wouldn't let him leave Thousand Palms. His reason for leaving this area was to get away from the noise of Highway 60-70-99.

SEPTEMBER 15, 1941

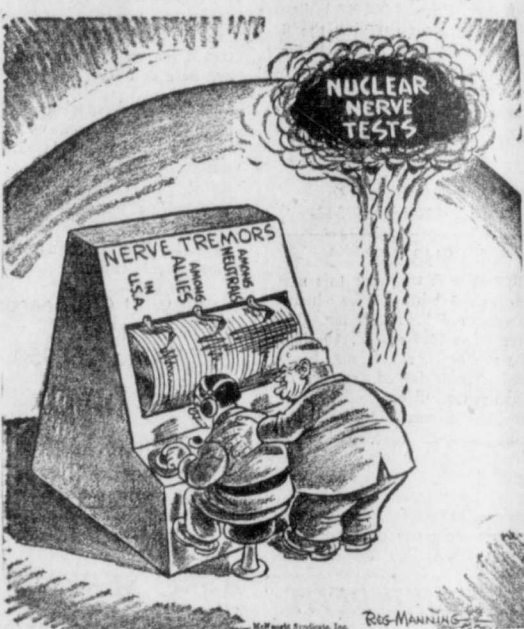

Palm Springs was welcoming many of its winter residents back in the community after the summer. Among those returning were the F. W. Watsons, the Gordon Nicholsons, the Thomases Slavins, Dr. and Mrs. Lee Evitts and M. I. Hannahs.

SEPTEMBER 15, 1931

The U. S. Government said that it would step in and complete the Palm-to-Pines road toward Indio. The government signed a contract with a San Diego firm for construction of 10.26 miles of highway.

Palm Springs was shaken by two earthquakes that did no damage, with the exception of startling residents.

Russ Size-em-up-o-graph

Dear Abby . . .

. . . by Abigail VanBuren

DEAR ABBY: My problem is a boy friend who is a head shorter than I am. When we dance together I have to keep my chin up because if I put it down it looks as though I am trying to hide. But just try dancing with your chin up all evening, and you will get a pain in the neck. It is really painful, but I love to dance. I know it looks funny for a girl to be dancing with a boy when she is a head taller than he is, but that doesn't bother me so much as the stiff neck I get from it. Have you any advice? STIFF NECK

DEAR STIFF: If dancing with your chin up is painful—give up dancing. If it is more painful to give up dancing, give up the boy.

DEAR ABBY: I would like a full-time sleep-in position in a motherless home. It must be a modern home in the best section of town. I would like the father to be between 40 and 50 (no older). And he must be 6 feet tall as I am a well-proportioned 5 ft. 8 in., and don't feel comfortable with short men around me. I am considered attractive, dress well and enjoy good music and dancing. I am in excellent health and 35.

LOOKING

DEAR LOOKING: Are you looking for a position or for a man? If it's a position, place your ad in the classified section of this newspaper, or register with an employment agency. If it's a man, your approach is clever, but obvious.

DEAR ABBY: Can you tell me when it is proper to wear a hat, and when it is all right to go without one? I always seem to guess wrong. Even in church some women go hatless. I have felt so foolish wearing a hat that I have left it home on similar occasions. Then I find everyone else is wearing one, and I feel embarrassed. Please advise me. HAT PROBLEM

DEAR HAT PROBLEM: If you are to be properly dressed there are occasions when a hat is absolutely mandatory. Church attendance is one. Solemn occasions, such as funerals, christenings and graduations, require a hat. Wear hat to lunch, tea, shopping, club meetings, to the theater (a small one), or any occasion where you want to look your best. With few exceptions, like going to bed or playing touch football (even then some wear helmets), a hat always shows smart grooming.

This Side of The Sun

By R. F. 'Phat' Graettinger

The P.O. doesn't think it's fun. There were too many holes in one.

There's a new post office at Bermuda Dunes and its personnel had a stiff workout last week. Trying to run golf balls through the cancelling machine.

JUST PROVING, in a way, that the Palm Springs area is the Winter Golf Capital of the World and is really golf-minded. Ray Ryan and Ernie Dunlevie of Bermuda Dunes Country Club mailed a flock of golf balls to a large list of friends. That would have been all right if they had been packaged. But they were sent in the raw—nude—with a stamp on one side of the dimpled surface and the address on the other.

I'VE HEARD post office workers complain at Christmas Time and on other festive occasions which call for cards from friends. That complaint was because the cards weren't all of the same size and wouldn't go through the cancelling machines. The machine wouldn't take the golf balls either. And think of hand-cancelling a golf ball, or trying to, and having it squirt away and shoot across the room.

BUT IT WAS a good idea and boosted this area as a famed golfing center. It was also a souvenir of the first post office opened at Bermuda Dunes.

The way those golf balls rattled into P.O. boxes and were propelled by mail carriers certainly amounted to many holes-in-one.

But, like they always say, it's an ill wind, et cetera. I know a man who went around to all of his non-golfing friends and picked up their souvenirs. So now he won't have to worry

about lost balls for a while. They didn't cost him anything.

COMES A SHARP complaint in the mails this week. Like this:

"Dear Phat — and I do mean dear. You are awfully expensive. You and your idea to have drivers keep their automobile lights on in daytime, too, as a safety measure. You cited railroad locomotives and buses which burn headlights day and night so that they can be seen from a greater distance. "Railroads and buses have crews to service the vehicles after the day's run and turn off the lights."

HE WENT ON—"but I don't. I followed your advice and burned my lights in the daytime. Left the car parked in the driveway when I got home. "Was late to work the next morning and rushed out to start the car. What happened? Nothing! I'd forgotten to turn off the lights. No battery. "Haven't received my bill from the service man yet but when it comes I expect you to pay for it. Put it on the expense account."

DAY AFTER TOMORROW, Sunday, Sept. 17, is Constitution Day, starting Constitution Week. That should be the time to pause and give thought to the document which made the United States the greatest country in the world and resist the efforts of those who would scrap it, calling it a "horse and buggy" age paper.

We became great by heeding its precepts and we can remain great the same way.

LEGAL NOTICE

No. 238
NOTICE OF INTENDED SALE
NOTICE IS HEREBY GIVEN that the Board of Supervisors of the County of Riverside, State of California, does offer for sale, and will grant by ordinance to the highest bidder, on the terms and conditions specified in this advertisement and in proposed Ordinance No. 477 on file in the Office of the Clerk of the Board of Supervisors, a franchise described as follows:

A non-exclusive franchise for a period of 25 years to construct, operate and maintain a television antenna cable service together with all necessary appurtenances as may be required to operate and maintain said service along, under and across the public roads within the unincorporated area of the County of Riverside as the same now or may hereafter exist, for transmitting and distributing electrical impulses and signals for television or radio purposes; namely, to produce reproductions of sights and sounds to the residents of the unincorporated area of the County of Riverside.

Sealed bids in writing for such franchise will be received by the Board at the office of the Clerk of the Board, up to 10 o'clock A.M. on October 16th, 1961, and at the time above mentioned in the board room of the Board of Supervisors, any and all sealed bids will be opened. Each sealed bid shall be accompanied with cash or a certified check for the full amount of the bid and no sealed bids shall be considered unless the cash or the check is enclosed therewith.

At the time of the opening of the bids any responsible person, firm or corporation present or represented may bid for said franchise a sum not less than 10% above the highest sealed bid therefor, and any such oral bid may be raised not less than 10% by any other responsible bidder, and said bidding may so continue until the franchise is finally struck off, sold and awarded to the highest bidder.

If the successful bid is an oral bid the successful bidder shall deposit at least 10% of his bid with the Clerk before the franchise shall be struck off to him. If he shall fail

LEGAL NOTICE

to do so, then his bid shall not be received, and the franchise shall then and there be offered again for sale to the bidder who shall make the highest cash bid therefor, subject to the same conditions as to deposit.

The successful bidder shall deposit with the County Clerk, within 24 hours of the acceptance of his bid the remaining 90%, and if he shall fail to do so then the said deposit previously made shall be forfeited, the award of the franchise set aside, and no further proceedings for sale of the franchise shall be had unless it is readvertised and again offered for sale in the manner hereinbefore provided.

The Grantee of the franchise or his assigns shall, during the life of the franchise, pay to the County of Riverside 5% of the gross annual receipts of the Grantee arising from the use, operation or possession of the franchise. If the franchise is a renewal of a right already in existence, payment shall begin upon the granting of the franchise. If the franchise is not a renewal of a right already in existence, no percentage shall be paid for the first 5 years succeeding the date of the franchise, but thereafter the percentage shall be payable annually. If payment is not made, the franchise shall be forfeited.

The Grantee shall file with the Clerk of the Board, within 5 days after the awarding of the franchise a corporate surety bond approved by, and running to the County of Riverside in the penal sum of \$10,000, conditioned that the Grantee shall well and truly observe, fulfill and perform each and every term and condition of the franchise and that in case of any breach of condition, the whole amount of the penal sum shall be deemed to be liquidated damages and shall be recoverable from the principal and surety upon the bond. A cash deposit in the same amount may be made in lieu of said bond.

BY ORDER OF THE BOARD OF SUPERVISORS.

Dated: August 22, 1961.

By: W. R. PATTY, Deputy

Published: Sept. 7, 8, 9, 11, 12, 13, 14, 15, 16, 18, 1961.

No Test Plans in Atmosphere Soon

WASHINGTON (UPI) — Chairman Glenn T. Seaborg of the Atomic Energy Commission said today the United States has no present plans for resuming nuclear tests in the atmosphere but that he would not rule out such action in the future.

Seaborg told reporters that present U.S. policy calls for underground testing and "there is no indication that the policy will be changed."

Slim Chance to Send Man Into Orbit in 1961

CAPE CANAVERAL, Fla. (UPI) — The United States still holds a slim chance of sending a man into orbit around earth this year, but the astronaut will have to wait until a baby chimpanzee proves it is safe.

Project Mercury scientists, flushed with the success of Wednesday's orbit and recovery of a robot astronaut, plan to send the small ape on a 75,000-mile space voyage three times around earth inside a bell-shaped capsule.

Plans for the orbital chimp shot, which could come within six to eight weeks, represented an apparent victory by Mercury's scientists in a reported behind-the-scenes struggle with administration leaders over the next step in the man-in-space program.

Sources said "some top people," including congressmen on key committees, had pressed Mercury chiefs to forget the chimp shot and go straight to a manned orbital flight. Space agency head James E. Webb denied his agency was under heavy pressure.

Scientists insisted another unmanned orbital flight was necessary to test certain improvements such as a new escape hatch, modifications in communications equipment and a few other "small changes."

Webb said President Kennedy had called the manned-flight program "urgent," but had insisted it be carried out with "minimum risks." The robot success "strengthens our hope for a manned flight before the end of this year," Webb said.

Cattle Call and Rodeo Set for Brawley Nov. 4

Dates for the fifth annual Imperial Valley Rodeo and Brawley Cattle Call have been set for Nov. 4 to Nov. 12 with the program covering a wide range of events for the exciting week at Brawley.

Atmosphere of the Old West will prevail in the various events on the program, breakfasts, barbecues, dances and the big rodeo on the final two days of the event.

A golf tournament featuring prominent players and celebrities is scheduled at Del Rio Country Club during the week. Kangaroo Kourt, western dances, a horse-man's dinner, other special events dot the program hailed as "bigger and better than ever."

Prominent rodeo stars are entered in the R.C.A. Rodeo the final two days of the celebration.

But he added under questioning that "I wouldn't want to indicate that this policy will hold indefinitely for the future."

Asked when the United States actually would resume its underground testing Seaborg would not comment.

Slip of Tongue
Seaborg said the Soviets had conducted 10 tests. This apparently was a slip of the tongue, however. An AEC spokesman confirmed that the nine tests already announced was the correct figure.

Asked if the United States could keep pace with Russia by limiting itself only to underground experiments, Seaborg said "we can go a long distance in keeping pace" in this manner.

The Soviet Union has exploded nine nuclear devices, all in the atmosphere, since it broke the three-year test moratorium Sept. 1. The latest two blasts were set off Wednesday.

The two new Russian explosions, announced by the AEC, were in the low to intermediate kiloton range. This means their explosive force was measured in thousands of tons of TNT. Two previous blasts were in the millions of tons class.

To Resume Tests
President Kennedy has announced that the United States will resume underground and laboratory nuclear tests late this month. He said this country had no choice in view of the Soviet testing.

In a note to Japan Wednesday, the State Department said Kennedy was forced to order a resumption of U.S. tests because of Soviet Premier Nikita Khrushchev's threat to build a 100-megaton "super-terror" bomb.

The note, a reply to a Japanese protest, also rebuked Khrushchev for what it called his "disdain for the security and well being of all mankind" in resuming tests which produce radioactive fallout.

Weather scientists said the Russians staged their two large tests last Sunday and Monday at a time when winds would carry radioactive clouds over eastern Finland and such Soviet cities as Murmansk and Leningrad.

6 Schools in Golden Jubilee

Six elementary schools in Palm Springs this week are sharing in the Golden Jubilee of Bank of America's school saving program, founded in California by A.P. Giannini in 1911.

September has been designated as School Savings month and Robert Baker of the local Bank of America, in charge of the program in Palm Springs, reported that of this week there were 1,663 school savings accounts from pupils in all schools except the high school.

Statewide, 4,727 schools are participating in the thrift program and there are 1,408,118 school savings accounts on the books. The average size of these accounts, started with nickels and dimes, is \$26.62.

BLAST KILLS DIVER
STARKE, Fla. (UPI)—Authorities reported Thursday a skindiver was killed when an air compressor exploded while he was recharging oxygen bottles.

TWO YOUNG sisters, Sandra, 9, and Susan, 7, enjoy the sunshine in Galveston, Tex., while their parents, Mr. and Mrs. Henry Cohn, go about the unpleasant task of cleaning up around their heavily damaged home. (UPI Telephoto)

Headway in Merger of Chamber, Association

DESERT HOT SPRINGS — The Desert Hot Springs Chamber of Commerce and the Rental Owners Association here have set meetings to consider merger proposals which would enlarge the chamber board of directors and stipulate board representation.

The Chamber, headed by President George Mueller, will meet in the new Chamber quarters Thursday evening. The Rental Owners Association has set a Tuesday evening meeting. President Michael Michalwicz announced.

For the chamber, the meeting will probe reaction to the rental owners proposals for the merger. Recommendations include increasing the board of directors from 15 to 17, with the following composition:

Four members would be named by the rental owners, two each would be selected from the Desert Hot Springs Board of Realtors and the Desert Hot Springs Improvement Association; two from the builders and contractors; two from business groups not previously named; and five from the chamber membership.

Election for the new board, if approved after by-laws changes, is proposed for Jan., 1962. The rental owners have also proposed that the chamber offices be open eight hours daily, seven days a week, with volunteer help from retired residents.

Cathy Crosby Now Engaged

HOLLYWOOD (UPI) — Band-leader Bob Crosby's 22-year-old daughter, Cathy, who once feuded bitterly with her parents over her romance with a headwaiter, is engaged to a Texas oilman, her family announced Thursday.

The beautiful, dark-haired bride-to-be — who strongly resembles Elizabeth Taylor — is engaged to Texan Eddie Gilbert and already is shopping with her mother for a wedding trousseau, said her uncle, Larry Crosby.

Larry is the brother of crooner Bing Crosby, who also is Cathy's uncle.

Adenauer Now Admits Elks Picnic Age; Short Term Seen Slated Sunday

BONN, West Germany (UPI)—Top lieutenants of Chancellor Konrad Adenauer say that at 85 he admits he is getting old.

The word is going around that if, as result of Sunday's elections, Adenauer becomes the oldest man in modern times to form a new government of a major power, he will serve only through the next two years at most and probably only through the duration of the present crisis.

This is important not only to West Germany, but to the United States and its other Allies as well.

Should election losses or advancing age force the iron-willed chancellor from office, changes in the German approach to certain problems seem not only possible but probable.

Franz-Josef Bach, right-hand man to Adenauer, shrugs when asked about the question of the chancellor's age.

"After all," he says, "if the chancellor were to finish out his next term, he would be nearly 90. But, if a change must come,

White Cane Day By Lions Clubs October 20-21

Lions clubs in the desert area were notified today that the 11th annual observance of White Cane Day, a project sponsored by Lions International, will be held in California and Nevada Oct. 20 and 21.

District Governor Albert Mendel Sr. of Apple Valley has appointed George W. Brooks of Pomona, as chairman for the area east of Pomona to the state line including the desert.

The annual observation has raised millions of dollars for sight conservation work. The project has been among the leading ones of Palm Springs Lions Club since it received its charter 24 years ago.
